

Macro Group UK Medal for Contribution to UK Polymer Science 2007

This years award has been made to **Prof. Steve Armes** (University of Sheffield) for his outstanding contribution to the UK polymer community. Research in the Armes group has focussed on many areas and currently includes the synthesis of micelles using novel hydrophilic-hydrophilic diblock copolymers exhibiting stimuli-responsive behaviour, the synthesis of shell-cross-linked micelles using novel ABC triblock copolymers, and the synthesis of novel polymeric surfactants.
